1 Overview

This user guide describes the General Services Administration (GSA) Enterprise Infrastructure Solutions (EIS) Enterprise Operations Solution (EOS) Services Public Pricer), which allows public users to compare prices for vendor telecommunication services provided under the EIS contract.

Step-by-step instructions are provided on how to use the Public Pricer.

1.1 Background

The EIS EOS Services Public Pricer is part of a set of web-based tools supported by the EOS. It allows users to price all Contract Line Item Numbers (CLINs) for all services and their features, for current and previous years, for all EIS vendors. The Public Pricer also displays service availability information based on specific location addresses.

1.2 Purpose

The **Public Pricer** allows users to search and view the prices of telecommunications products and services available under the EIS contract, by vendor.

1.3 Users

The primary users of the Public Pricer are members of the general public.

1.4 Access

The Public Pricer is available online at <https://eis-public-pricer.eos.gsa.gov>.

2 Home Page

Use the **Public Pricer home page** (Figure 1) to access all Public Pricer functions.

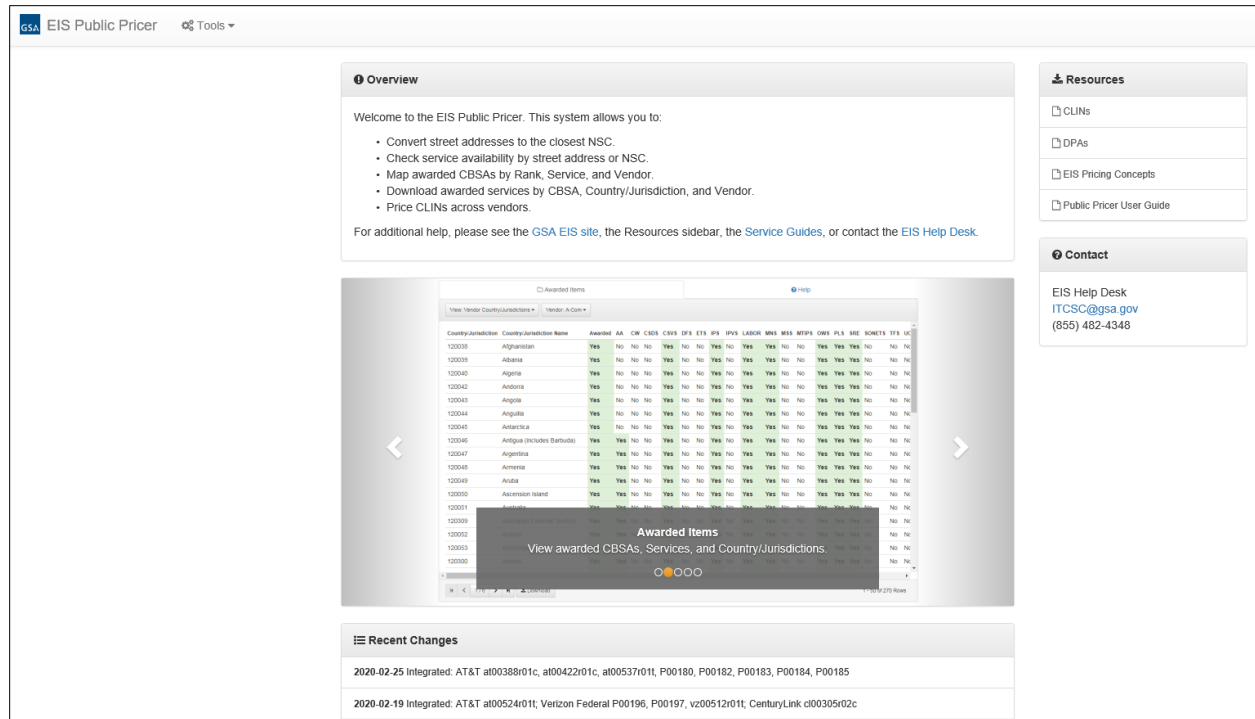

Figure 1: Public Pricer Home Page

2.1 Overview Panel

At the top of the page, an **Overview panel** lists key functions of the Public Pricer:

- Convert street addresses to the closest Network Site Code (NSC)
- Check service availability by street address or NSC
- Map awarded Core-Based Statistical Areas (CBSAs)
- Download awarded services by CBSA, Country/Jurisdiction, and vendor
- Price CLINs across vendors

The Overview panel also provides a link to the Service Guides page (Section 9), and a link to email the EIS Help Desk.

Below the Overview Panel, a scrolling display previews the following functions in turn:

- Address Lookup (Section 3)
- Awarded Items (Section 4)
- CBSA Lookup (Section 4)
- Service Guides (Section 9)
- Unit Pricer (Section 10)

Click any scrolling display image to go to the page for the associated function.

2.2 Recent Changes Panel

The **Recent Changes panel** lists:

- The most recent Public Pricer updates

- The most recent integrated mods for all vendors and contracts

To go to the Changes page (Section 6), click the **View Older Changes link**.

2.3 Resources Panel

The **Resources panel** at the top right of the page contains a list of resource hyperlinks, including links to download an EIS CLINs spreadsheet, an EIS Delegation of Procurement Authority (DPA) spreadsheet, and an EIS Pricing Concepts document.

2.4 Contact Panel

The **Contact panel** provides the EIS Help Desk email address and phone number.

2.5 Tools Menu

The **Tools menu** in the header provides links to Public Pricer functions (Figure 2).

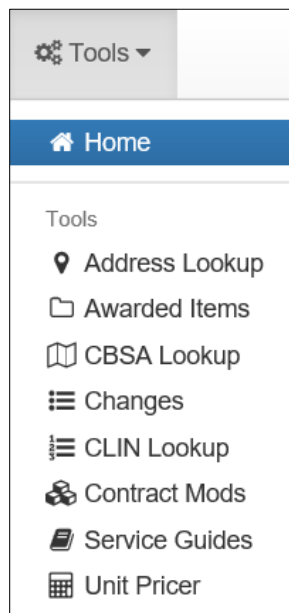

Figure 2: Tools Menu

The Tools menu links to the following functions:

- Address Lookup (Section 3)
- Awarded Items (Section 4)
- CBSA Lookup (Section 5)
- Changes (Section 6)
- CLIN Lookup (Section 7)
- Contract Mods (Section 8)
- Service Guides (Section 9)
- Unit Pricer (Section 10)

3 Address Lookup Page

To find NSCs associated with a street address, or the street (location) associated with an NSC, use the **Address Lookup page**.

By default, the **Single Address Lookup tab** is displayed (Section 3.1). To view online help, click the Help tab.

3.1 Single Address Lookup Tab

Use the Single Address Lookup tab to look up a single address or NSC (Figure 3).

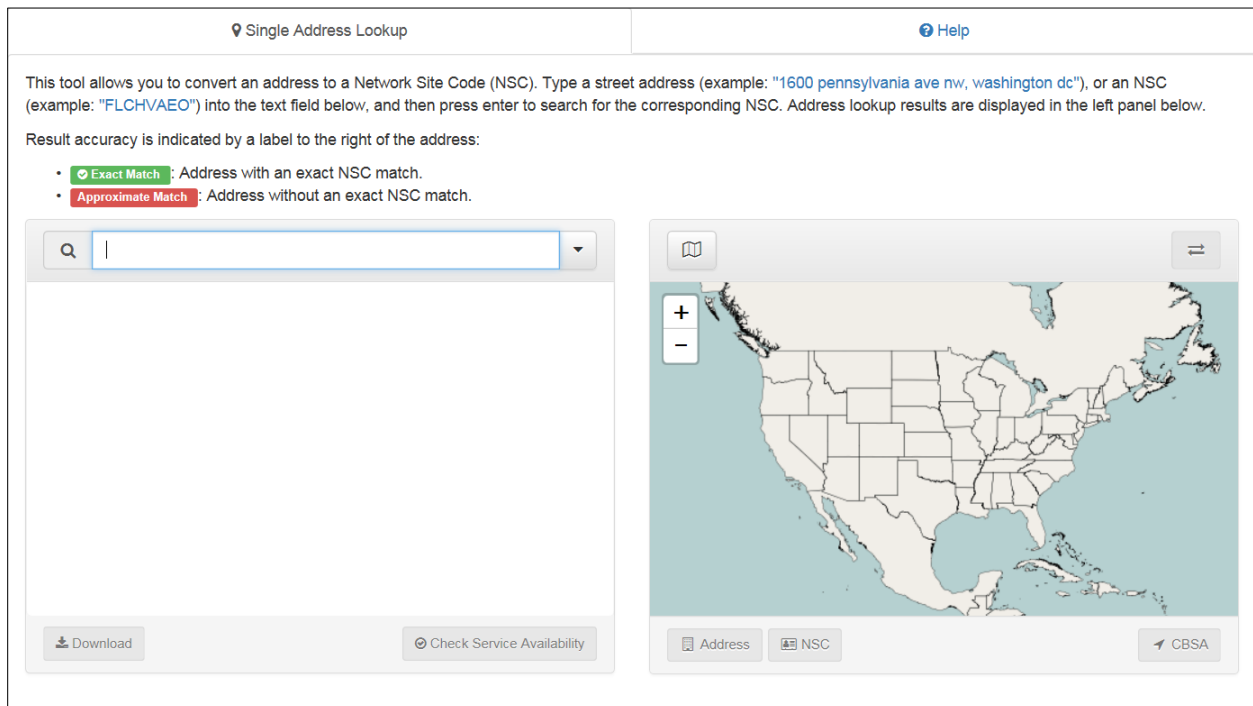

Figure 3: Single Address Lookup Tab

When an address is entered, the tool displays a list of possible NSC matches in the left panel. The following information is displayed for each possible result:

- The normalized street address
- A label indicating if the result is an exact or approximate NSC match:
 - Exact matches are displayed in green (Figure 4)
 - Approximate matches are displayed in red (Figure 5)
- The closest NSC and NSC address
- The bounding CBSA for this NSC

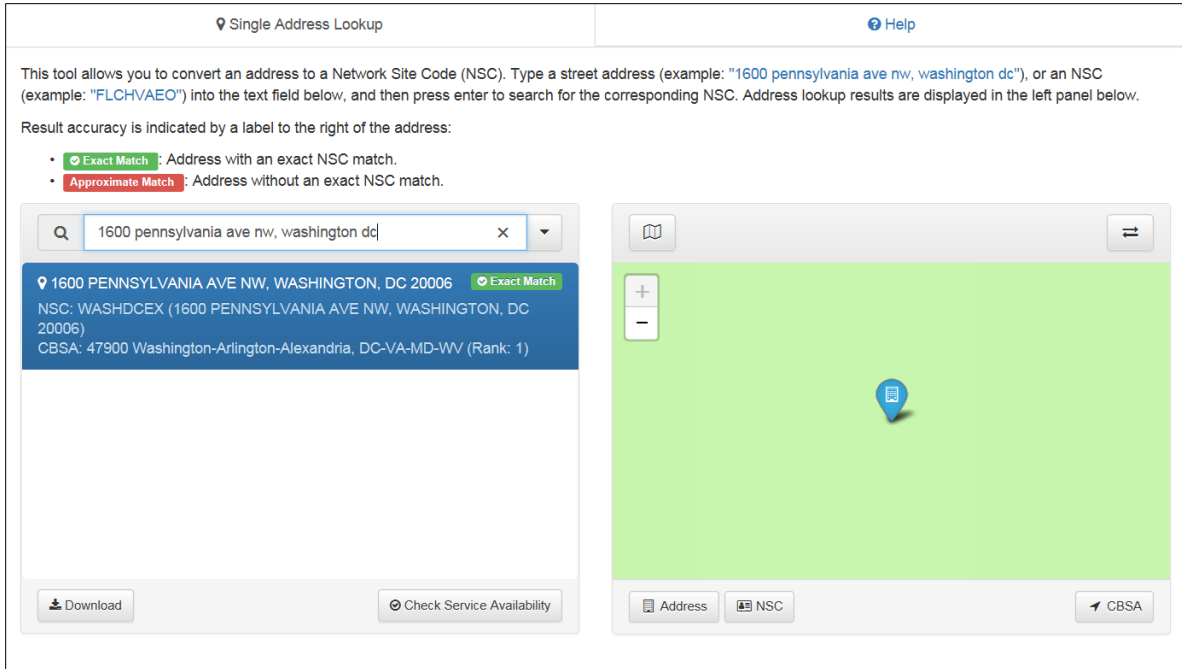

Figure 4: Single Address Lookup Tab: Exact Match

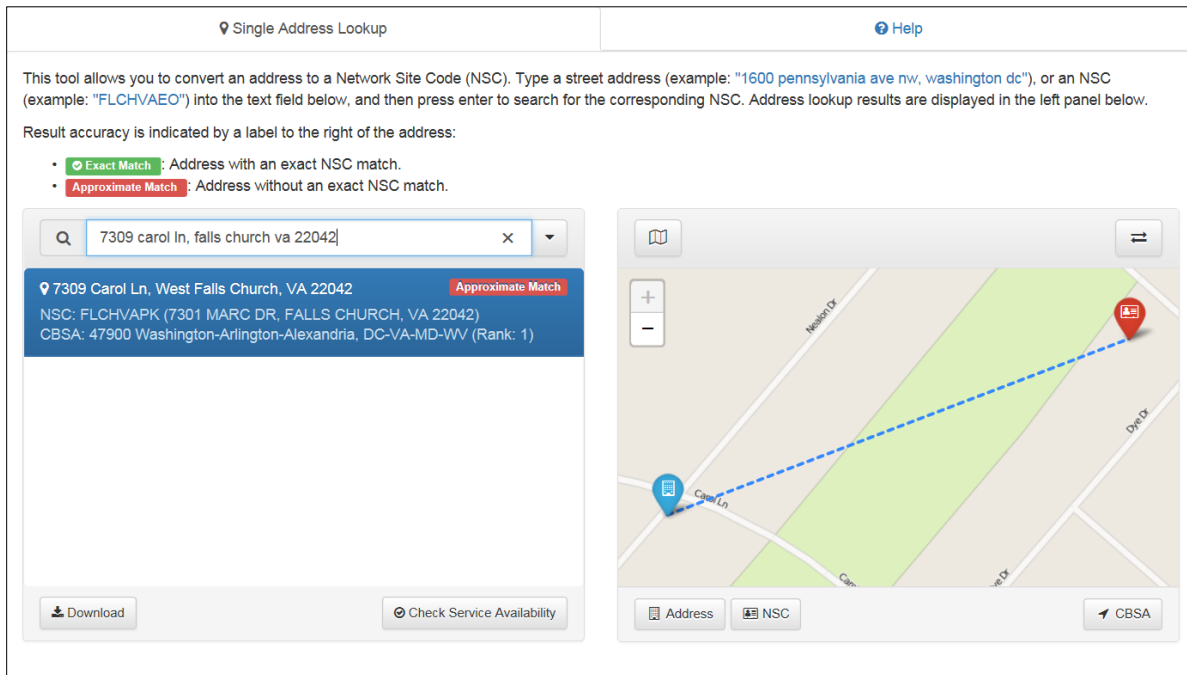

Figure 5: Single Address Lookup Tab: Approximate Match

To display a matching address and the closest NSC in the map on the right, select an entry from the list in the left panel (if there is only one, it is selected by default).

3.1.1 Examples

Some additional example street addresses and NSCs are provided below:

- “3150 fairview park dr, falls church va 22042”
(Street address that has an exact NSC match)
- “7309 carol ln, falls church va 22042”
(Street address without an exact NSC match)
- “2565 van buren st, eugene or”
(Street address without an exact NSC match, with multiple results)
- “FLCHVAEO”
(Sample NSC)

Note: Address and NSC strings are not case sensitive.

3.1.2 Map Options

Use the map panel header and footer buttons to quickly locate points of interest.

3.1.2.1 CONUS Button

To reset the map to a view of the Continental United States (CONUS) (Figure 7), click the **CONUS button** (Figure 6).

Figure 6: Single Address Lookup Tab: CONUS Button

4.2.3 Vendor CBSAs View

The **Vendor CBSAs** view (Figure 21) displays awarded location-based optional and voice services by CBSA for the vendor selected in the **Vendor** menu. This view

contains a row for each CBSA, ordered by CBSA rank in the EIS contract. The columns indicate whether the CBSA was awarded to the selected vendor, provide the vendor's awarded mandatory voice service for the CBSA, and indicate whether the vendor was awarded the location-based optional or voice services for the CBSA. Voice services are included because they could be awarded as optional services for the CBSA.

5.2 Service Menu

To limit the map display to CBSAs where an individual service was awarded, use the **Service menu** (Figure 28). Services are grouped into the following categories:

- Access Arrangements
- Data Service
- Voice Service
- Managed Services
- Service Related Equipment
- Service Related Labor
- Cable and Wiring

By default, the **All Services option** is selected.

- **Associated CLINs tab:** Displays CLINs associated with the selected CLIN
- **Auto-Sold CLINs tab:** Displays Auto-Sold CLINs associated with the selected CLIN
- **B-Tables tab:** Displays B-Tables associated with the selected CLIN
- **Contract Mods tab:** Displays contract mods that have affected prices for the selected CLIN
- **Help tab:** Displays documentation for the CLIN Details Dialog

7.4.1.1 CLIN Details Tab

The **CLIN Details tab** (Figure 45) displays the following attributes of the selected CLIN:

- **CLIN:** A 7-digit alphanumeric string that uniquely identifies this Contract Line Item Number (CLIN)
- **CLIN Name:** The name of this CLIN
- **Frequency:** The charging frequency of this CLIN:
 - **MRC:** Monthly-Recurring Charge
 - **NRC:** Non-Recurring Charge

- **Usage:** Usage-based charging
- **Charging Unit:** The charging unit of this CLIN
- **Mandatory CLIN:** Whether this CLIN is mandatory
- **NSP:** Whether this CLIN is Not Separately Priced (NSP)
- **Service ID:** The unique identifier for the parent service of this CLIN
- **Service Name:** The name of the parent service of this CLIN
- **Section Number:** The Request For Proposal (RFP) section number of the parent service of this CLIN
- **CBSA Based Service:** Whether the parent service of this CLIN is CBSA-based (i.e., the parent service is awarded by CBSA for domestic regions and by Country/Jurisdiction for non-domestic regions)
- **Mandatory Service:** Whether the parent service of this CLIN is a mandatory service
Note: Vendors must offer one mandatory voice service at all awarded CBSAs
- **Voice Service:** Whether the parent service of this CLIN is a voice service (i.e., Circuit Switched Voice Service [CSVS] or Internet Protocol Voice Service [IPVS])
Note: Vendors must offer one mandatory voice service at all awarded CBSAs
- **CLIN Notes:** Any additional notes about this CLIN

Figure 72: Result List: Result Panel

The panel header contains:

- An **Options menu** (accessed by clicking the gear button)
- A **CLIN Details panel** (accessed by clicking the Result panel title)

The Result panel body contains a table with a row for each unique date range and task order combination, based on the selections made in the Add Price dialog.

10.2.1.1 Options Menu

To work with an individual Result Panel, use the **Options menu** (Figure 73).

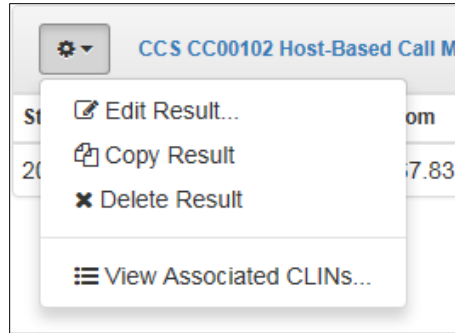

Figure 73: Result List: Result Panel: Options Menu

The Options menu contains the following entries:

- **Edit Result:** Edit the settings for this price result
- **Copy Result:** Create a duplicate copy of this price result
- **Delete Result:** Delete this price result from the Result list
- **View Associated CLINs:** Display the Associated CLINs dialog (Section 10.6).

10.2.1.2 CLIN Details Panel

To display details about a price result, use the **CLIN Details panel** (Figure 74).

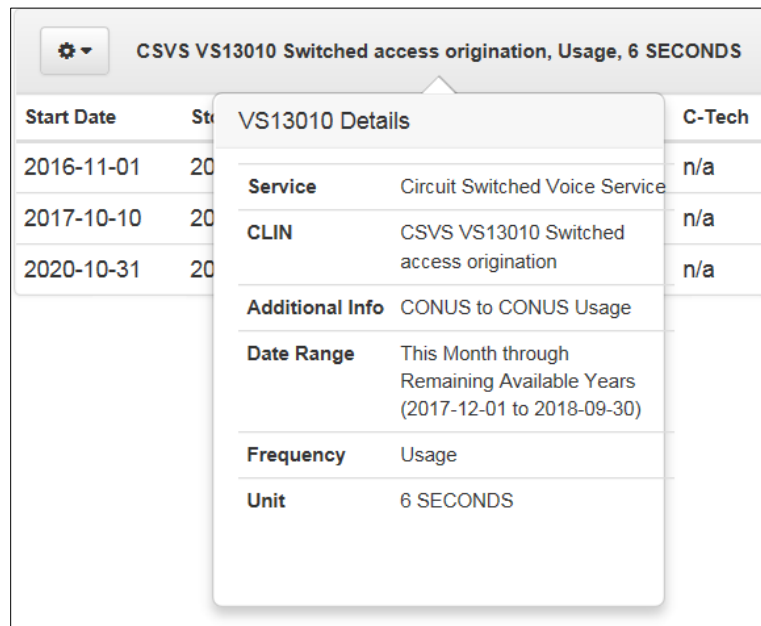

Figure 74: Result List: Result Panel: CLIN Details Panel

The CLIN Details panel displays the following:

- Service Name
- CLIN and CLIN Name

- Additional Information
- Date Range
- Frequency
- Unit

10.3 Add Price Dialog

The **Add Price dialog** guides the user through the steps necessary to search for prices of telecommunications products and services (Figure 75).

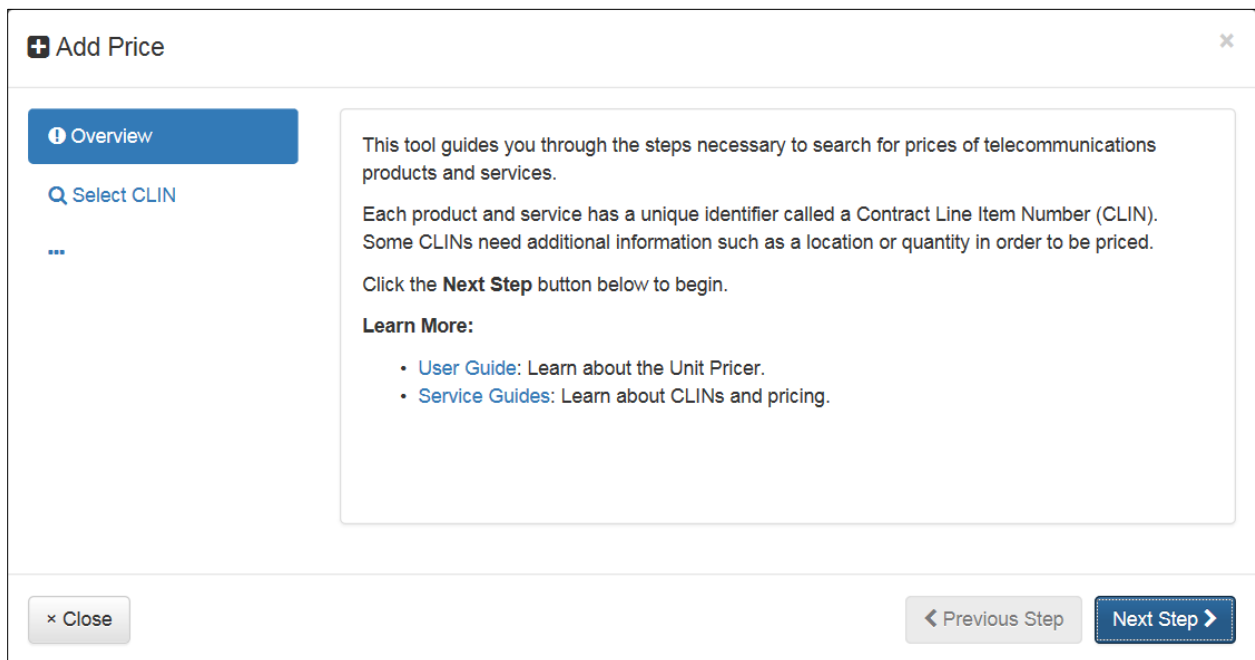

Figure 75: Add Price Dialog

10.3.1 Tab Sidebar

The left sidebar of the Add Price dialog displays the set of available steps as a vertical list of tabs, with the currently active tab highlighted in blue (Figure 76).

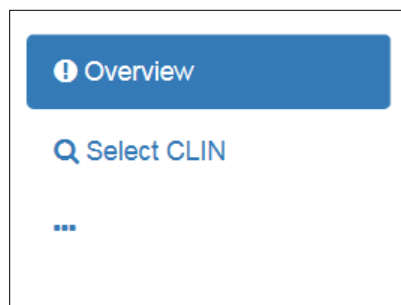

Figure 76: Add Price Dialog: Tab Sidebar

Note: The tabs visible in the sidebar change based on the selections made in the Select CLIN tab (Section 10.3.5) and Select Additional Info tab (Section 10.3.5.6).

10.3.2 Navigation Buttons

To navigate to the previous and next step in the Add Price dialog, use the **Previous Step** and **Next Step** buttons in the lower right corner (Figure 77).

Figure 77: Add Price Dialog: Navigation Buttons

To quickly navigate between steps, click the tabs in the sidebar. To close the dialog, click the **Close button** at the left.

10.3.3 Title

Once a CLIN has been selected a CLIN on the Select CLIN tab, the **Title** will contain a summary of the current CLIN (Figure 78).

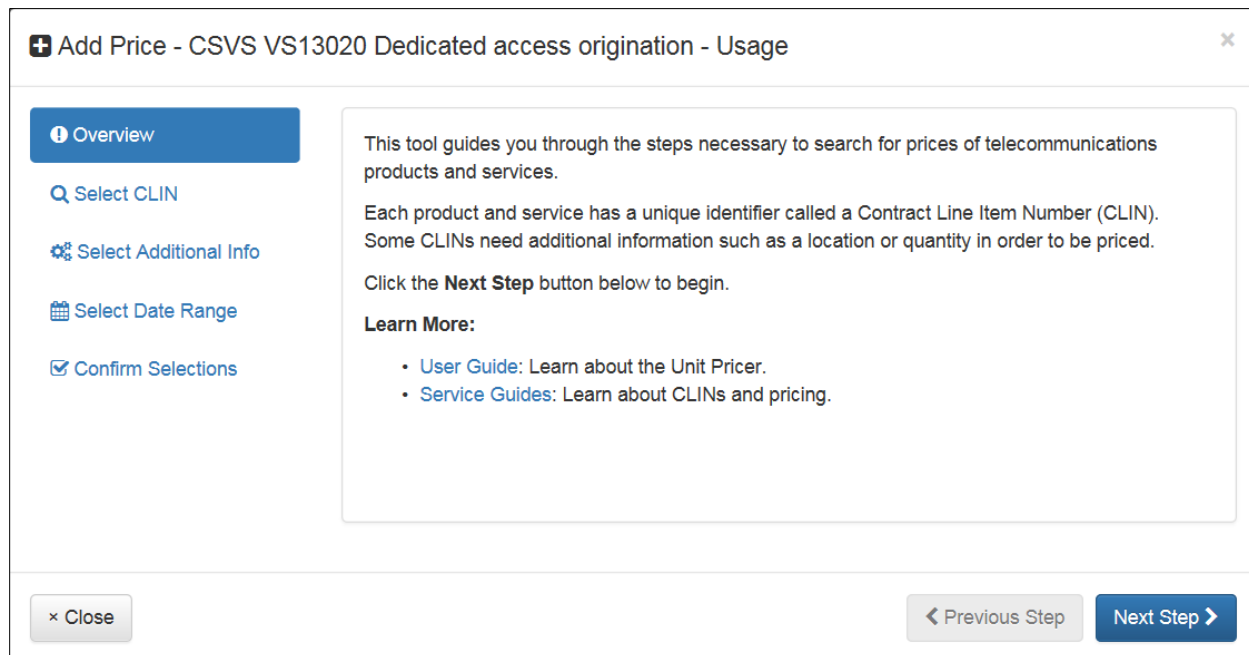

Figure 78: Add Price Dialog: Title

10.3.4 Overview Tab

The **Overview tab** describes the Add Price dialog (Figure 79).

10.3.5.4 Search Field

To search for a CLIN, use the **Search field** (Figure 84).

Figure 84: Add Price Dialog: Select CLIN Tab: Search Field

Search strings are matched against the following:

- CLIN
- CLIN Name
- Service
- Service Name

To select a search string that was previously entered during the current session, use the **Search History menu** on the right side of the Search field (Figure 85).

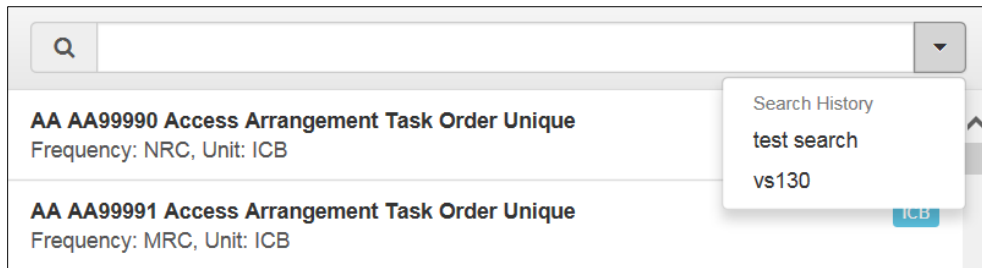

Figure 85: Add Price Dialog: Select CLIN Tab: Search Field: Search History

10.3.5.5 Result List

The **Result list** (Figure 86) displays the list of CLINs that match the filter settings defined using the Service menu and Search field.

CSVS VS13020 Dedicated access origination Frequency: Usage, Unit: 6 SECONDS
CSVS VS13030 Non-Domestic Mobile Termination Surcharge Frequency: Usage, Unit: 6 SECONDS

10.3.5.6 Sample Downloads

To download all CLINs, click the Search field and press [Enter]. When the Result list appears, click the Download button and save the file to the desired location.

To download all ICB CLINs, type “ICB” in the Search field and press [Enter]. When the Result list appears, click the Download button and save the file to the desired location.

10.3.6 Select Additional Info Tab

To specify additional pricing information for the selected CLIN, use the **Select Additional Info tab** (Figure 87).

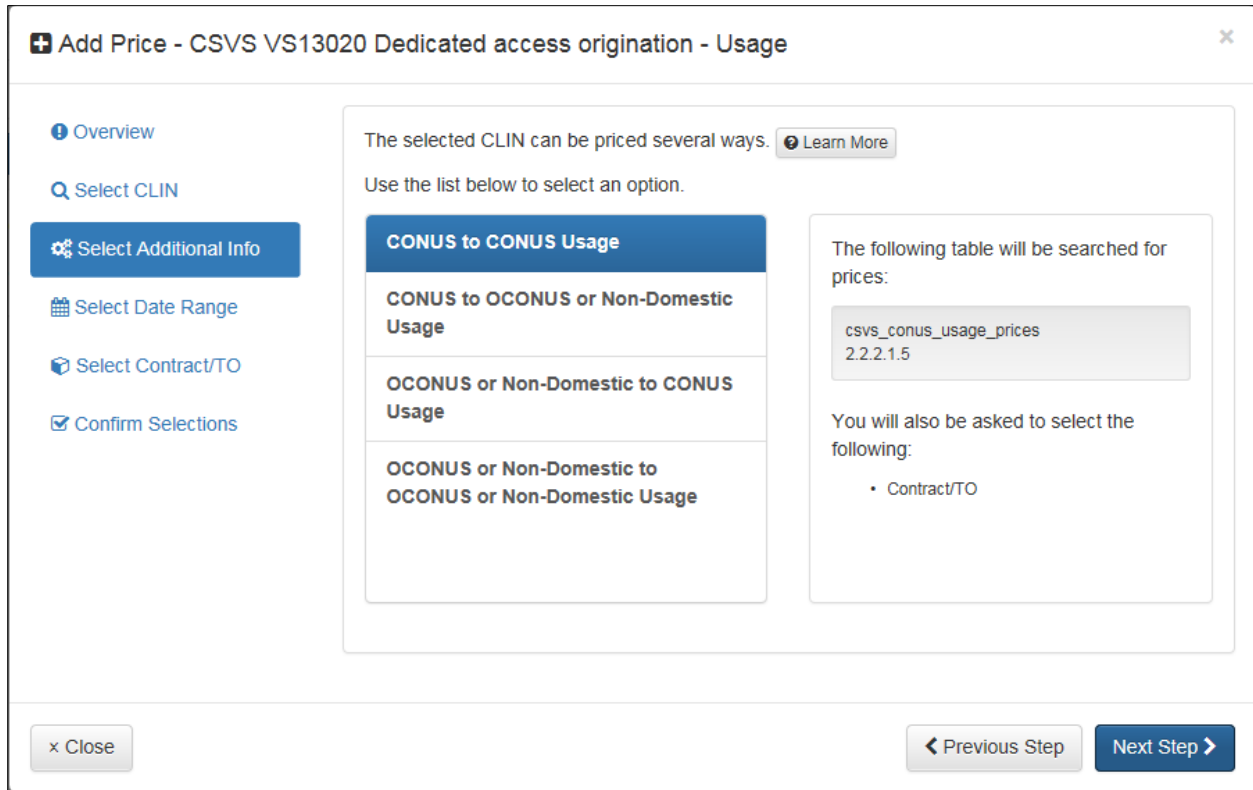

Figure 87: Add Price Dialog: Select Additional Info Tab

If there is more than one way to price the selected CLIN, vendors can offer different prices depending on the jurisdiction of each location. For example, vendors may offer one price if both sides of a connection are within the continental United States and another price if one side is outside the United States.

Common location jurisdiction terminology:

- CONUS: Continental United States
- OCONUS: Domestic locations outside the Continental United States, such as Hawaii, Alaska, and Puerto Rico.
- DOM: Domestic locations. All CONUS and OCONUS locations.
- NONDOM: Non-Domestic locations.

The left panel of the Select Additional Info tab lists pricing options, such as the location jurisdictions that are available for the specified CLIN. To continue pricing the CLIN, select an option.

The right panel provides detail information that is associated with the currently selected pricing option in the left panel. This information includes:

- The name of the table to search to obtain prices
- A list of additional selections that will be needed to price the selected CLIN (e.g., Case Number, Origin, Destination, Quantity, and/or Date Range)

Note: the entries in the Tab Sidebar (Section 10.3.1) will also change depending on which pricing option is selected.

10.3.7 Select Case Number Tab

To enter a case number for the currently selected CLIN, use the **Select Case Number tab** (Figure 88).

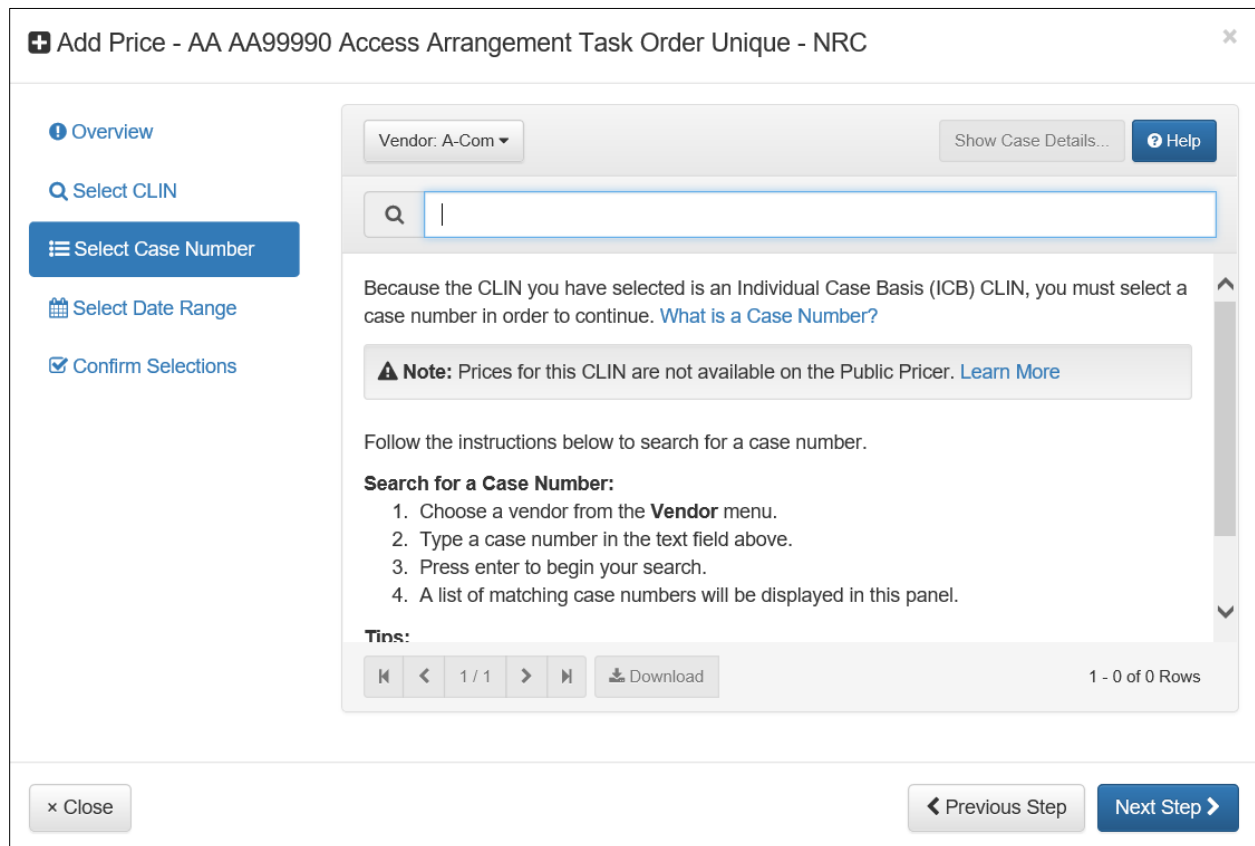

Figure 88: Add Price Dialog: Select Case Number Tab

Note: This tab is only displayed if an Individual Case Basis (ICB) CLIN was selected in the Select CLIN tab (Section 10.3.5).

10.3.7.1 Vendor Menu

To filter the list of case numbers displayed in the Select Case Number tab by vendor, use the **Vendor menu** (Figure 89).

Figure 89: Add Price Dialog: Select Case Number Tab: Vendor Menu

Note: The **All Vendors** option is available for Catalog and SRE CLINs only.

10.3.7.2 Show Case Details Button

To display the Case Details dialog (Section 10.4) for the selected case number, use the **Show Case Details button** (Figure 90).

Figure 90: Add Price Dialog: Select Case Number Tab: Show Case Details Button

10.3.7.3 Help Button

To display help text for the Select Case Number tab, use the **Help button** (Figure 91).

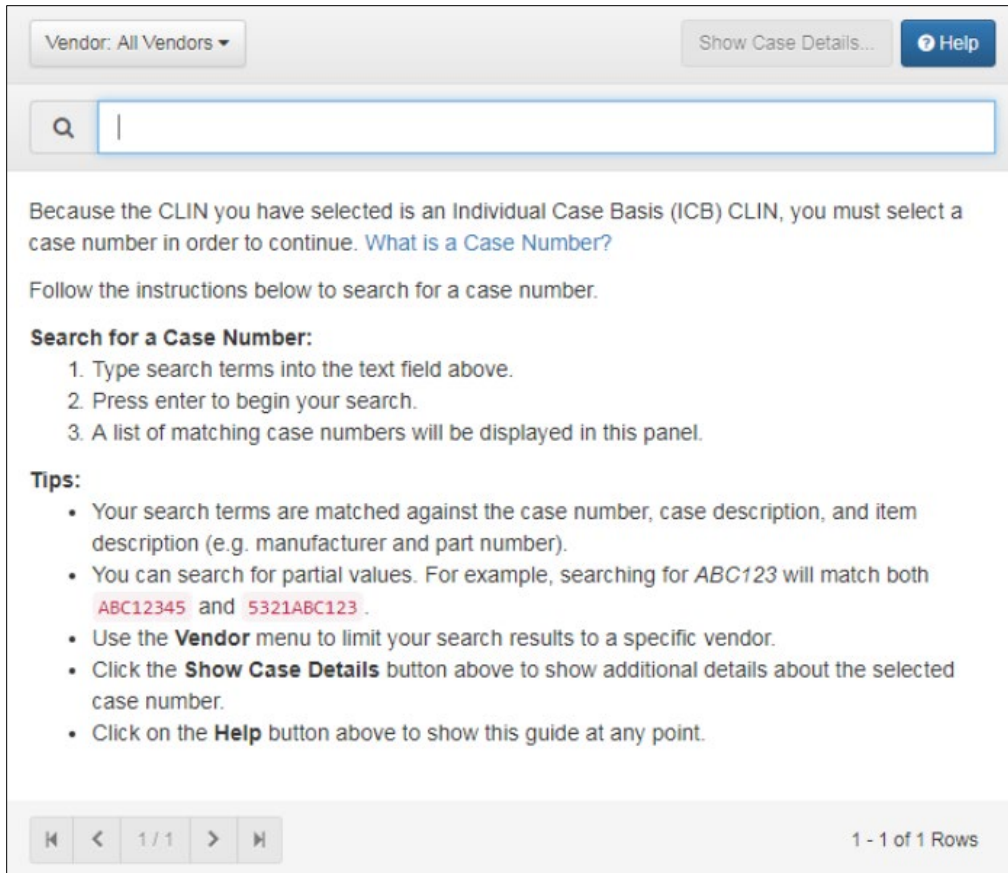

Figure 91: Add Price Dialog: Select Case Number Tab: Help Button

10.3.7.4 Search Field

To search for a case number, use the **Search field** (Figure 92). Enter a text string and press the **[Enter] key**. Unless otherwise stated, the text string may contain a partial value (e.g., searching for “ABC123” will match both “ABC123435” and “5321ABC123”).

Note: for non-Catalog, non-SRE ICB CLINs, the search string must exactly match the case number to return results. For Catalog and SRE CLINs, the search string will be matched against the case number, case description, and item description (e.g., the manufacturer and part number).

Figure 92: Add Price Dialog: Select Case Number Tab: Search Field

10.3.7.5 Result List

The **Result list** (Figure 93) displays case numbers for the selected CLIN that match the filter settings in the Vendor menu and Search field.

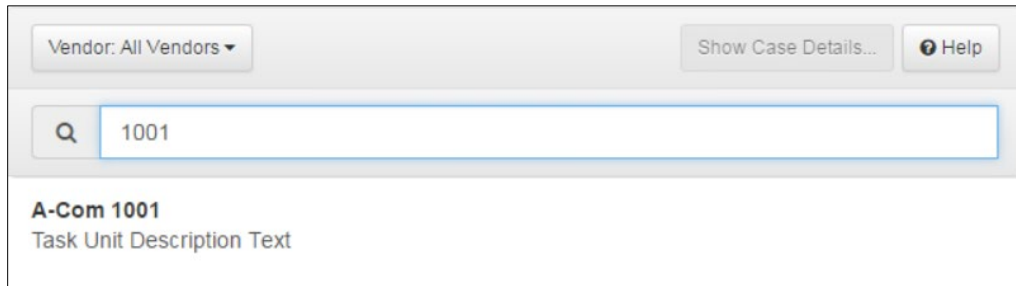

Figure 93: Add Price Dialog: Select Case Number Tab: Result List

10.3.8 Select Origin Tab

To search for and select an origin location for the currently selected CLIN, use the **Select Origin tab** (Figure 94).

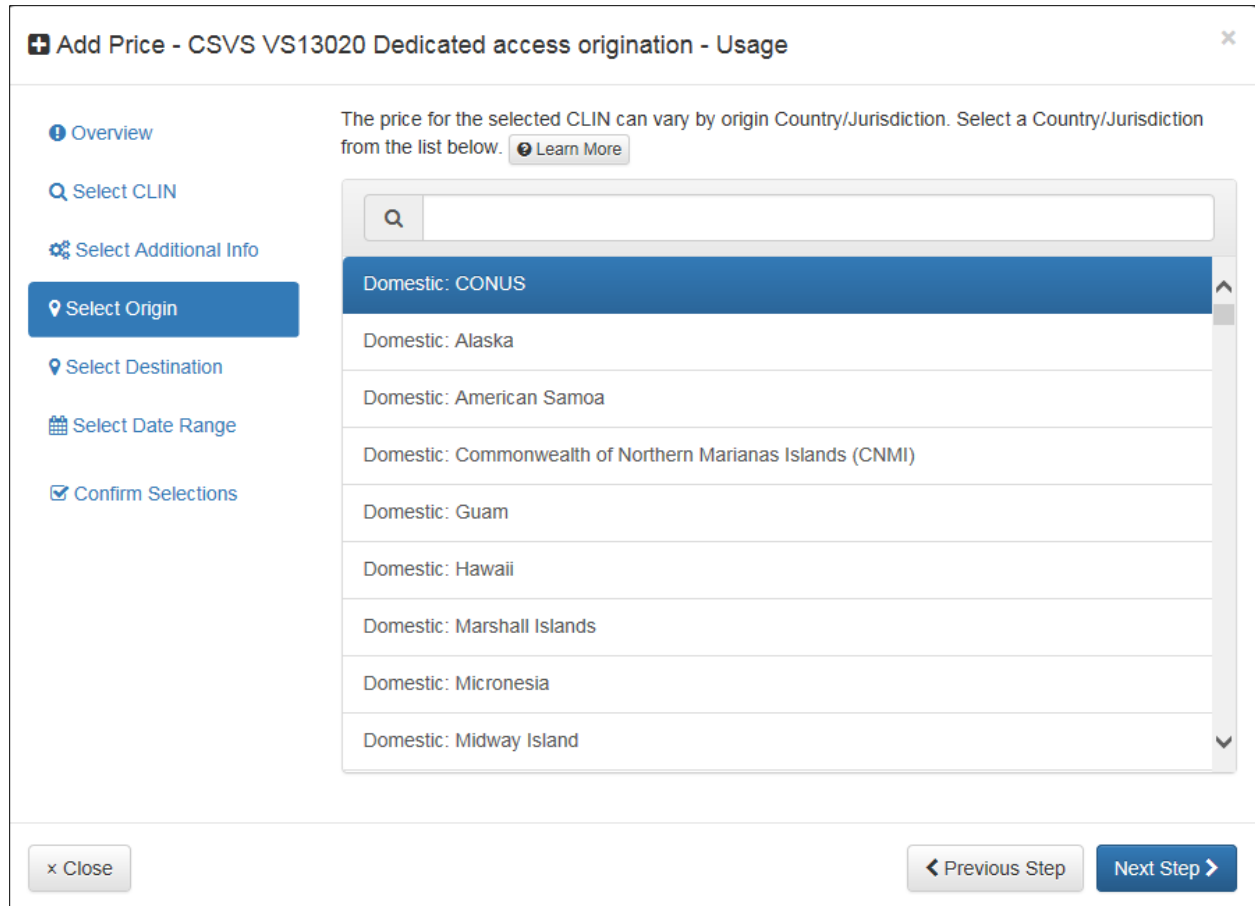

Figure 94: Add Price Dialog: Select Origin Tab

The functionality of this tab varies slightly depending on the type of location required:

- Network Site Code (NSC): Enter a street address or NSC in the search field, then press the **[Enter]** key to search for the closest NSC
- Country/Jurisdiction: Select a Country/Jurisdiction from the list
- Area of the World (AOW): Select an Area of the World from the list

Note: This tab is only visible if the selected CLIN and the pricing method selected in the Select Additional Info tab (Section 10.3.5.6) have an originating location requirement.

10.3.8.1 Search Field

To filter the list of visible locations, use the **Search field** (Figure 95). Enter a text string and press the **[Enter]** key.

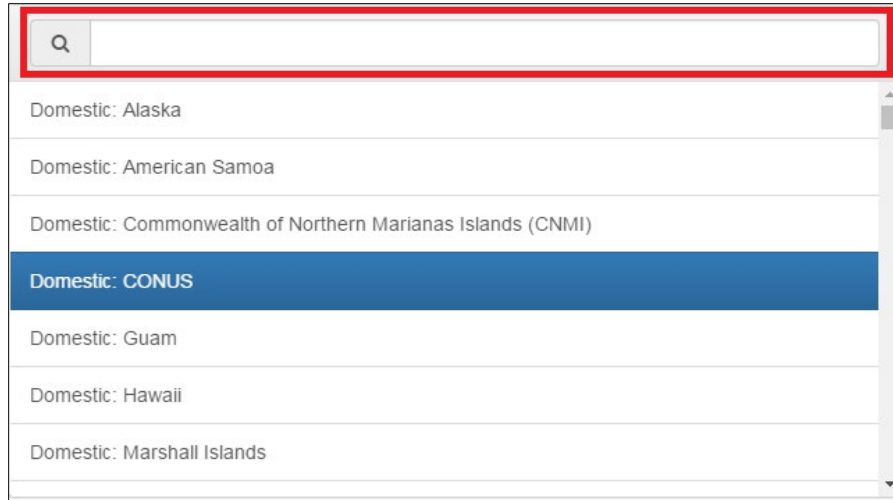

Figure 95: Add Price Dialog: Select Origin Tab: Search Field

To quickly access previous NSC or address searches for NSC locations, click the arrow at the right of the Search field to display the **Search History** menu (Figure 96).

10.3.8.2 Result List

The **Result list** (Figure 97) is a list of locations that match the search criteria defined using the Search field.

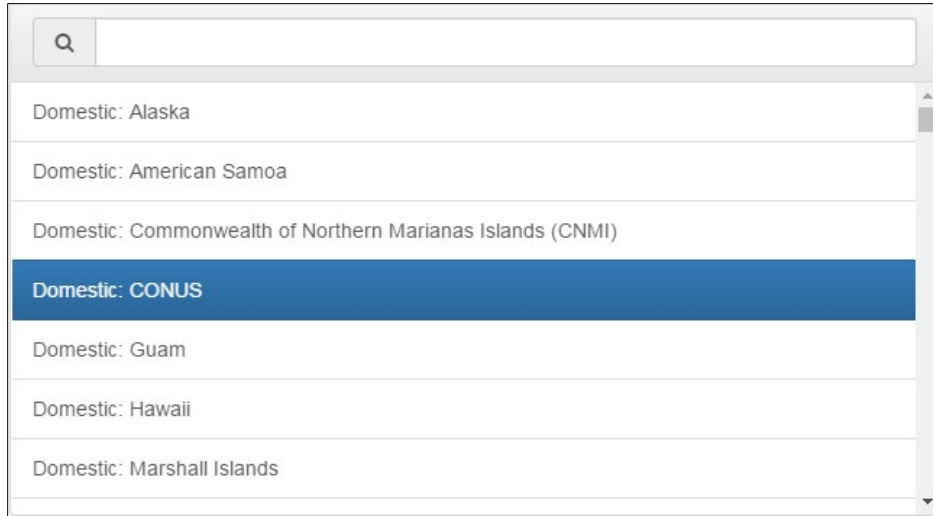

Figure 97: Add Price Dialog: Select Origin Tab: Result List

10.3.9 Select Destination Tab

To search for and select a destination location for the currently selected CLIN, use the **Select Destination tab** (Figure 98).

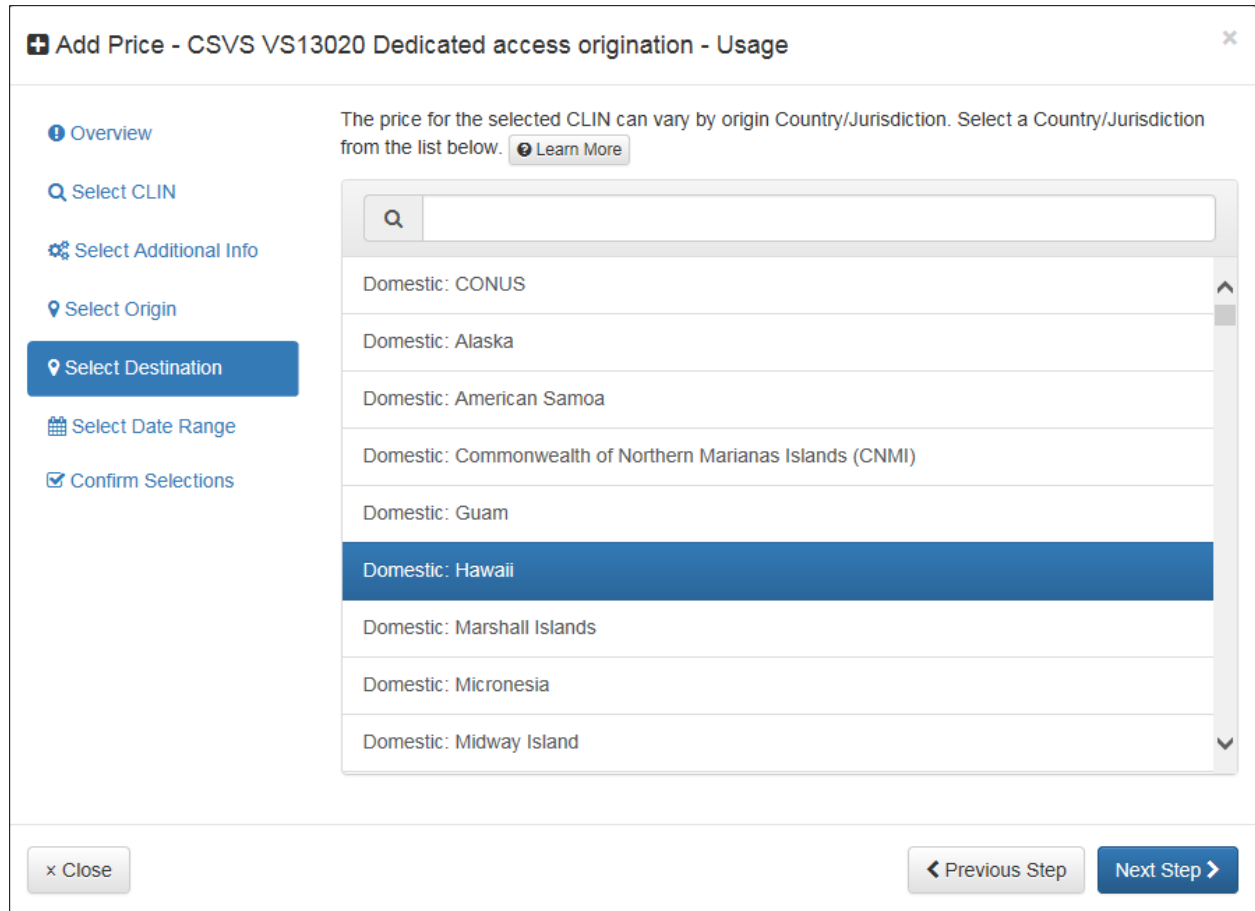

Figure 98: Add Price Dialog: Select Destination Tab

The functionality of this tab varies slightly depending on the type of location required:

- Network Site Code (NSC): Enter a street address or NSC in the search field, then press the **[Enter] key** to search for the closest NSC
- Country/Jurisdiction: Select a Country/Jurisdiction from the list
- Area of the World (AOW): Select an Area of the World from the list

Note: This tab is only visible if the selected CLIN and the pricing method selected in the Select Additional Info tab (Section 10.3.5.6) have a destination location requirement.

10.3.9.1 Search Field

To filter the list of visible locations, use the **Search field** (Figure 99). Enter a text string and press the **[Enter] key**.

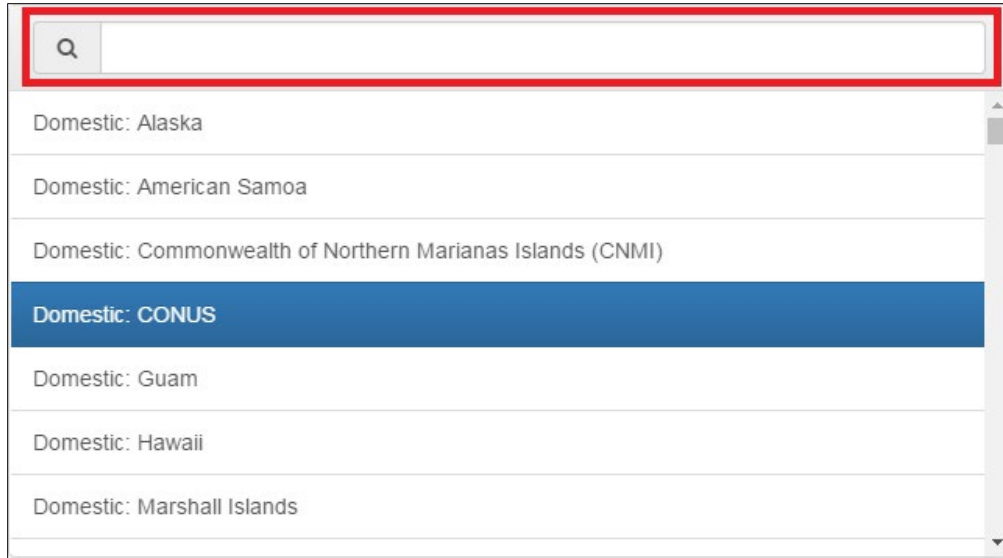

Figure 99: Add Price Dialog: Select Destination Tab: Search Field

To quickly access previous NSC or address searches for NSC locations, click the arrow at the right of the Search field to display the **Search History** menu (Figure 100).

10.3.9.2 Result List

The **Result list** (Figure 101) is a list of locations that match the search criteria defined using the Search field.

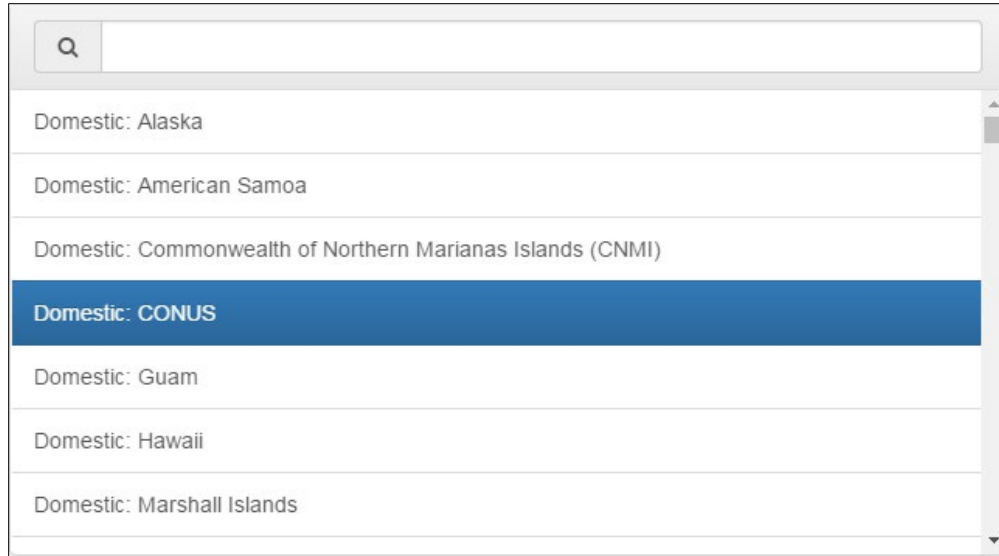

Figure 101: Add Price Dialog: Select Destination Tab: Result List

10.3.10 Select Quantity Tab

To select a unit quantity for the selected CLIN, use the **Select Quantity tab** (Figure 102).

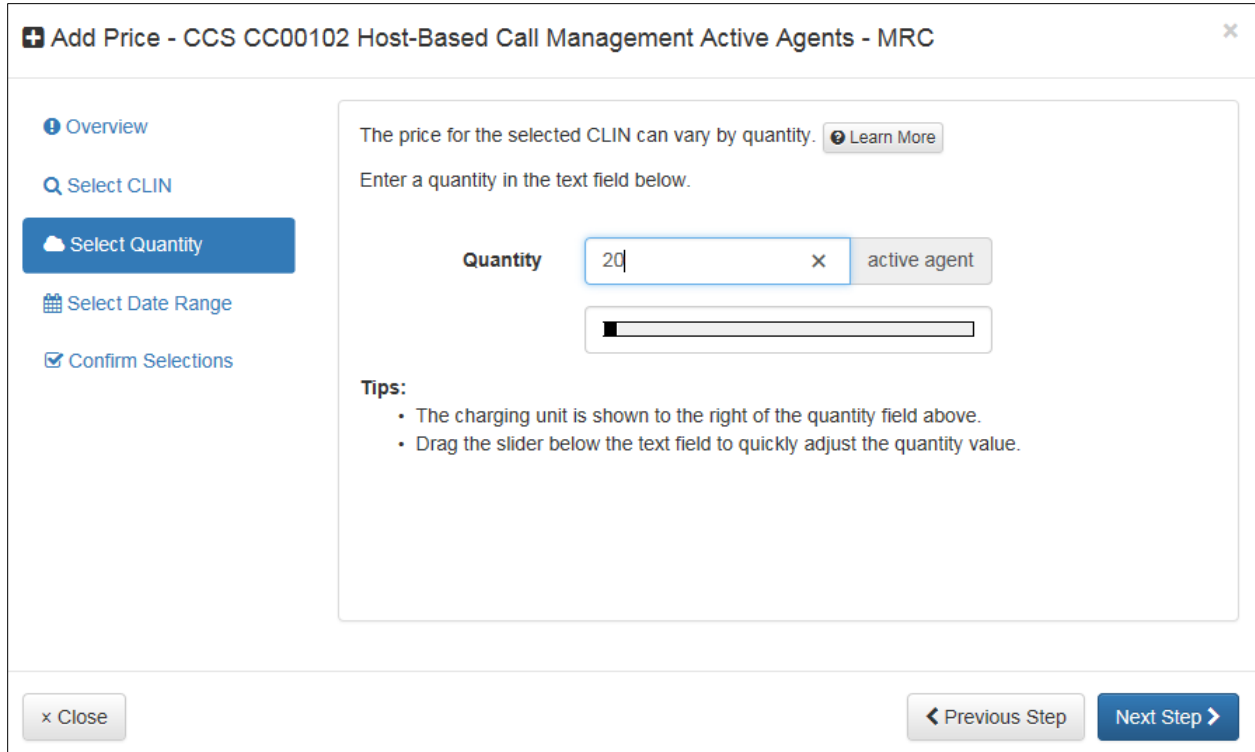

Figure 102: Add Price Dialog: Select Quantity Tab

The price for the selected CLIN can vary based on the quantity purchased. For example, vendors may offer a price when buying 1-10 units, another price when buying 11-20 units, and so on. The unit of measurement for the quantity (the charging unit) is displayed to the right of the quantity field. The price results displayed for the selected CLIN are the price per unit multiplied by the specified quantity.

Note: This tab is only displayed if the selected CLIN has prices that vary by quantity.

10.3.11 Select Pricing Element Tab

To select a pricing element for the selected CLIN, use the **Select Pricing Element tab** (Figure 103). Pricing elements include: Non-Recurring Charge (NRC), Monthly Maintenance Charge (MMC), or Monthly Recurring Charge (MRC) for Service Related Equipment (SRE), Installation, Inside Move, Upgrade, Installment, etc.

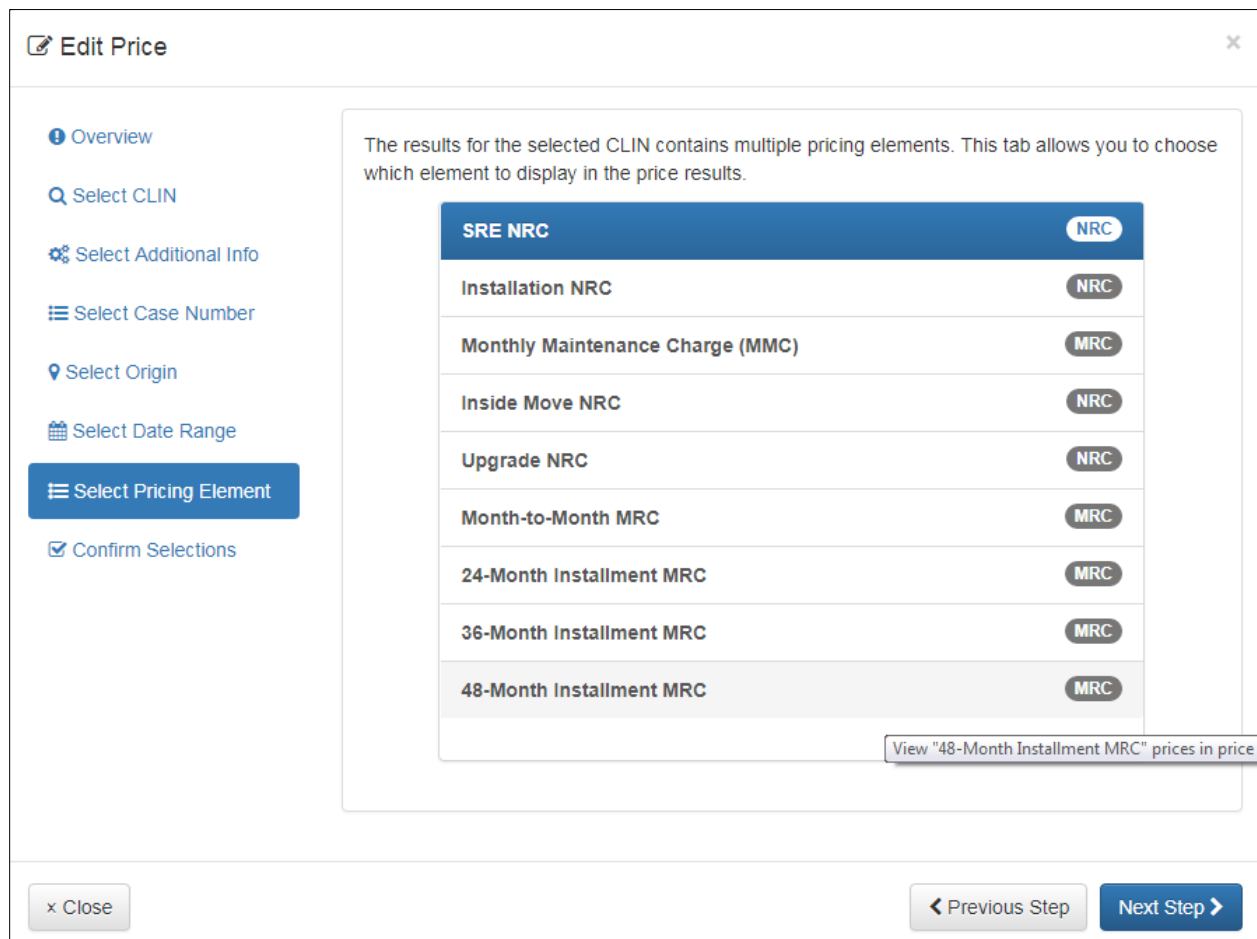

Figure 103: Add Price Dialog: Select Pricing Element Tab

Note: This tab is only displayed if the selected CLIN has multiple pricing elements.

10.3.12 Select Date Range Tab

To select a date range to search for prices, use the **Select Date Range tab** (Figure 104).

Figure 104: Add Price Dialog: Select Data Range Tab

By default, the “This Month through Remaining Available Years” option is selected.

10.3.12.1 Date Range Buttons

To select common date ranges, use the **Date Range buttons** (Figure 105).

Figure 105: Add Price Dialog: Select Data Range Tab: Buttons

10.3.12.2 Custom Date Range

To specify an arbitrary date range, use the **Custom Date Range button and fields** (Figure 106).

The screenshot shows a dialog box titled "Custom Date Range...". Inside, there is a text prompt: "Use the date fields below to enter your custom start and end dates." Below this prompt is a date selection interface with two input fields. The first field contains the date "2017-10-01" and the second field contains "2018-09-30". A "to" separator is positioned between the two fields.

Figure 106: Add Price Dialog: Select Data Range Tab: Custom Data Range

10.3.13 Confirm Selections Tab

To confirm the selections from previous tabs, correct any errors, and start the price search, use the **Confirm Selections tab** (Figure 107).

The screenshot shows a dialog box titled "Add Price - CSVS VS13010 Switched access origination - Usage". On the left side, there is a vertical navigation menu with the following items: "Overview", "Select CLIN", "Select Additional Info", "Select Date Range", and "Confirm Selections" (which is highlighted with a blue background and a checkmark icon). The main content area contains the text: "Review your selections, then click the **Find Prices** button below to search for prices." Below this text is a table summarizing the selections:

CLIN	CSVS VS13010 Switched access origination
Additional Info	CONUS to CONUS Usage
Date Range	This Month through Remaining Available Years (2017-12-01 to 2018-09-30)

At the bottom of the dialog, there are three buttons: "Close" (with an 'x' icon), "Previous Step" (with a left arrow icon), and "Find Prices" (with a plus icon).

Figure 107: Add Price Dialog: Confirm Selections Tab

To start the price search for the selected CLIN, click the **Find Prices button**.

10.3.13.1 Errors Panel

To check if any invalid selections were made on a previous tab, or if any steps were skipped, use the **Errors panel** (Figure 108). To display detail information, click an individual error entry.

10.3.13.3 Find Prices Button

To begin searching for matching prices once the selections have been reviewed, click the **Find Prices button** (Figure 110).

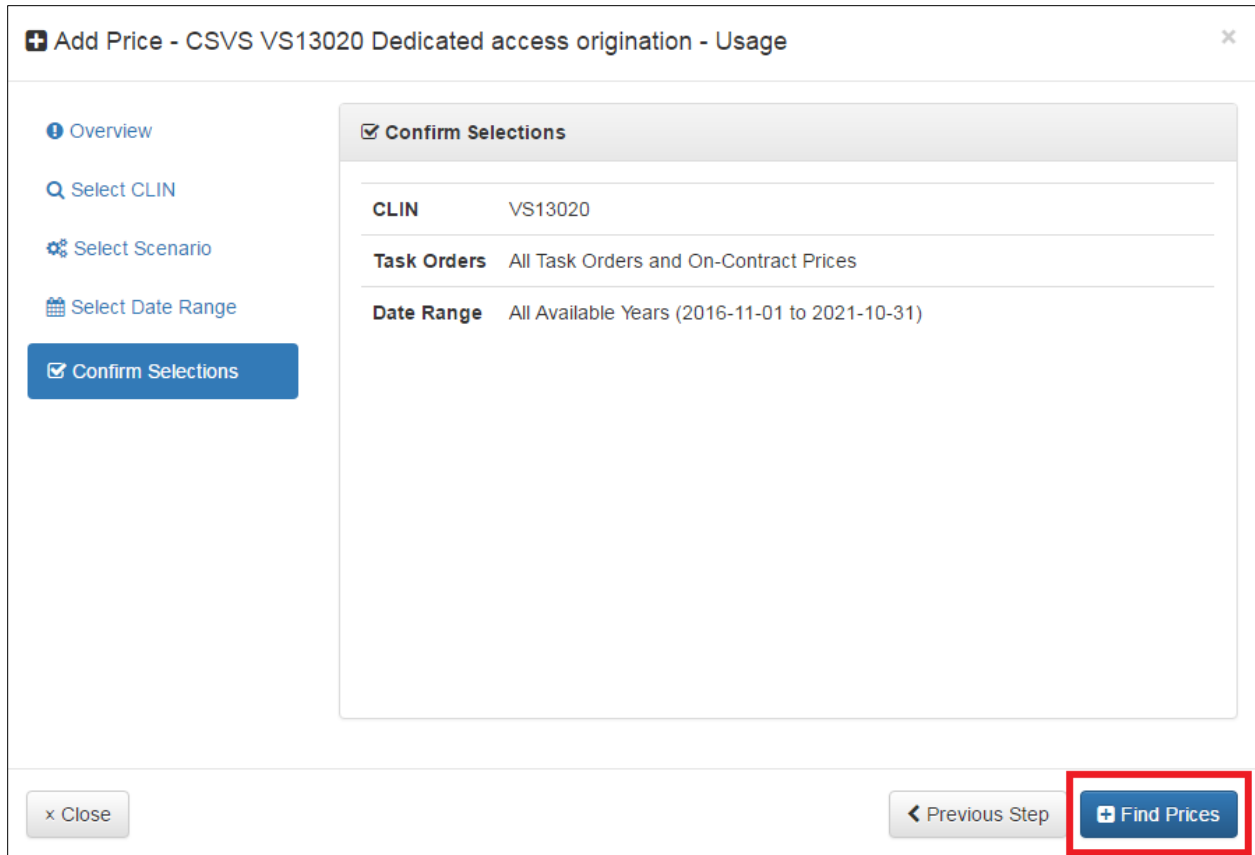

Figure 110: Add Price Dialog: Confirm Selections Tab: Find Prices Button

10.4 Case Details Dialog

To display any details provided by the vendor about the selected case number, use the **Case Details dialog** (Figure 111).

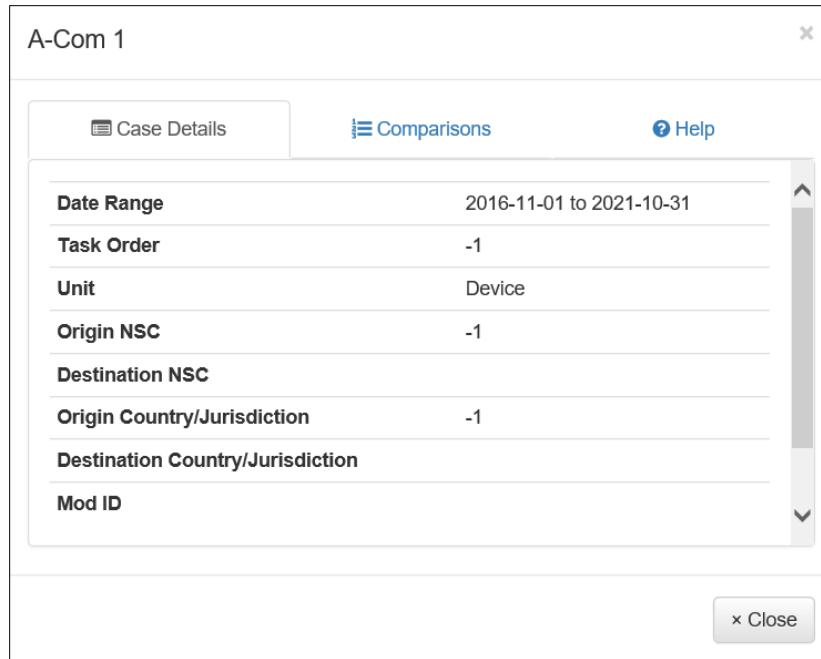

Figure 111: Case Details Dialog

The **Comparisons** tab is only visible when an SRE CLIN is selected (Figure 112).

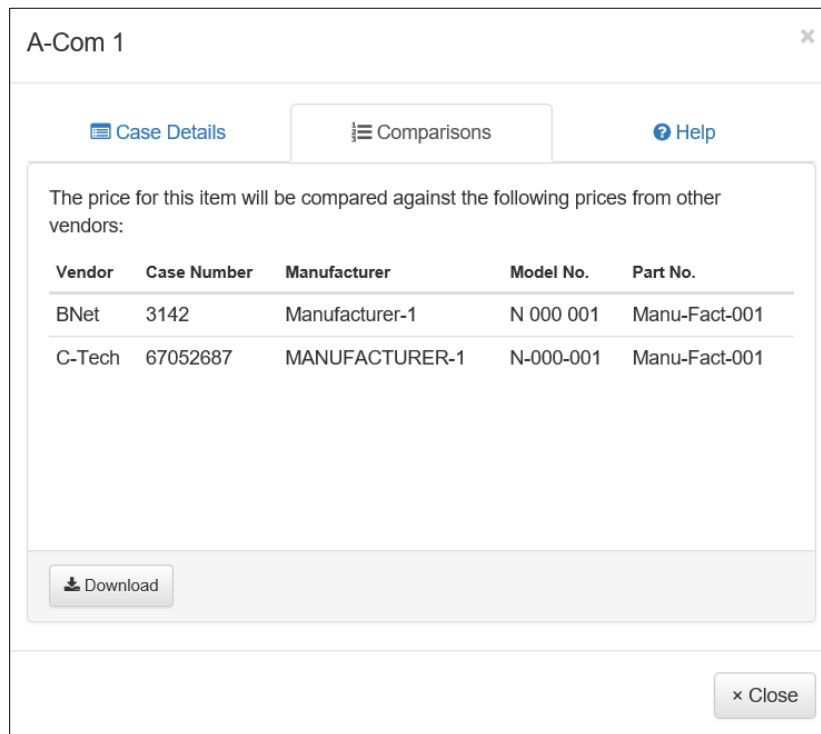

Figure 112: Case Details Dialog: Comparisons Tab

This tab compares SRE case number prices between vendors by matching the manufacturer, model number, and part number, and lists the case numbers from other vendors that will be compared against the price for the currently selected case number.

Click the **Download button** to download the comparison list as a CSV file.

10.5 Load Result Set Dialog

To load a previously saved Result set, use the **Load Result Set dialog** (Figure 113).
